

## הדר Hèder Malva Italia

**Heder Malva Italia** is an avant-garde Educational and Pedagogical Training Project for Infancy in Kindergarten, Primary and Lower Middle School that accompanies children between three and thirteen years of age, and children with learning disabilities. Held during the afternoon hours **from Sunday through Thursday from 17:00 (5:00 pm) to 19:00 (7:00 pm) (Italian Time)** in the Teaching of Language, History, Jewish Traditions with particular attention to the Teaching of the Torah, the Hebrew Language, the Halacha, the History of Judaism and its developments in Messianic Judaism in Italy and abroad. Preparation for Jewish Life Events of our children such as the Bat and Bar Mitzvah, Jewish Holidays according to the Jewish Messianic Teachings.

**Heder Malva Italia** started in 2014 through the Home Schooling Volunteer Program called Startup Imma, which saw the Volunteer Association Village of Hope & Justice Ministry (Onlus), Kindergartens of the city of Naples, Specialists in Early Childhood Education, Counselors, Social Workers, Single-Family Households, Children with Learning Disabilities, Children from 3 months to 3 years, their Families, involved in a Volunteer Project. The project was created to fight unemployment and school dropout rates, encouraging Bilingual Teaching to children from 3 months to 3 years and work on differentiation in teaching children with learning disabilities through a Nursery at Home Project in which the mother, supported by valid professionals as Teachers and Counselors, becomes the trainer of a small group of children (maximum 6). Helping her to find a job and at the same time not moving away from her home. The first volunteer project, lasting for the period of one year, has become a training model being tested in Israel through Heder Malva Italia.

The program is based on this **Specialized Training Program** and comes from a **wide experience in Online Training** of our Volunteer Association. It has seen the predisposition of children and parents in using computers, iPad, etc. as a means of breaking physical and territorial barriers, communicating and developing skills acquired and sharing them with a much higher performance than in class (traditional in-person method) training in this past year in the fight against Covid 19. We now believe that we can also start the **Home Schooling in Italy with an Online mode**, as well as in Israel and in the USA, which all children between the ages of three and thirteen which are in families belonging to our Ministerial Network and [Jewish Messianic Alliance of Italy](#), as well as those who wish to **become a member**, can attend.

The **First School Year** for the Pre-School, Primary and Junior High (middle school) age groups will start in September 2021 immediately after Rosh Hashana 5782 (Jewish New Year) as Pilot Training groups to which all those who wish can join according to the required age.

For information and adherence to the **Hesed Malva Italia Online Project** as a student/s and parents: Please write to [vohjm2013@gmail.com](mailto:vohjm2013@gmail.com) specifying **Hesed Malva Italia** in the **Subject** of your **Mail**.
